

# ADAMATIC® VDR Divider Rounder

Extremely accurate scaling and rounding • 2, 4 or 6 pockets • Up to 18,000 pieces/hour • Scaling range 1–19 oz.

VDR Divider/Rounder

Above: Adamatic VDR Divider Rounder with Bulk Hopper / Bowl Lift as part of Adamatic Roll Makeup Line

**Adamatic's** VDR Divider Rounder operates with 2, 4, or 6 pockets, at speeds up to 18,000 pieces/hour. The VDR can accommodate round rolls, moulded rolls, hot dog and hamburger buns, sub rolls and baguettes up to 19 oz. (For weights over 19 oz and up to 80 oz, Adamatic supplies and services Glimek dividers).

Adamatic Divider Rounders, the bakery equipment standard for roll production, are reliable and easy to run with multiple products. The benefit is that an Adamatic divider rounder runs more products with a single piece of equipment.

The VDR can be paired with Adamatic Roll Lines for complete dough processing. The VDR is manufactured in the USA, with parts, technical support and customer service all available within North America.

(See over page for dividing ranges and features/specifications)

# ADAMATIC® VDR Divider Rounder

Extremely accurate scaling and rounding • 2, 4 or 6 pockets • Up to 18,000 pieces/hour • Scaling range 1–19 oz.
